

The logo for NHUB features a stylized circular icon on the left, composed of concentric white and teal lines. To its right, the letters 'NHUB' are displayed in a large, bold, sans-serif font. The 'N' is teal, while 'HUB' is white.

At the center of your data flows

Nhub is a free software

It pairs multiple barcode scanners to a single host, enabling seamless integrations and data flows between our devices and your infrastructure.

Enjoy a variety of features...

Enhanced Bluetooth pairing

Seamlessly connect up to seven scanners to a single host, use a variety of visual and audio cues to see battery status, trace users, and locate misplaced devices.

Host-to-application data transfer

Effortlessly transfer scanned data to any third-party application installed on your host device.

Host-to-server data transfer

Easily transfer scanned data from the host device directly to your application server.

...and reap the benefits

Simplify integration

Nhub seamlessly integrates scanners with your existing systems, reducing the IT team's workload and eliminating the time and workforce needed for complex custom integrations.

Cut costs

Nhub is your ticket to cost savings! Beyond being a free software, it optimizes IT integration processes and cuts down the number of host devices required for pairing the scanners - 7 to 1 instead of 7 to 7!

Elevate accuracy

Nhub empowers your team to work collaboratively and make fewer mistakes while scanning and transferring data with the help of visual and audio cues.
